

Riesling Seeberg 2016

Wine Description

This special wine comes from one of our best sites: the Langenloiser Seeberg, a south-sided slope. In our vineyards on the Seeberg we work very carefully the whole year. We take away the surplus clusters in the summer and aim for a good relation between clusters and leaves. This is important for a good assimilation and maturity. The harvest for the Riesling Seeberg is always very late, usually not before November. The Riesling Seeberg has a clear straw color and intensive flavours of mellow apricots and vineyard peaches. On the palate the intensive fruits continue beside a very mineral and spicy taste. The wine is very complex, elegant with a medium body and a great long finish. This makes the wine to a real good companion to fat fish-dishes. 30 % storage in oak wood barrel
