Geographical Orientation:	south east
Sea Level:	130 m
Soil:	gravel lime loam

Vineyard Site:

Haideboden is the original name for the area of land around the municipality of Frauenkirchen, located to the east of Lake Neusiedl. The name "Haideboden" was first used by the Umathum winery for this cuvée in 1991. "Haideboden" spelled with an "A" is the original spelling and is only used by the Umathum Winery. The grapes for this wine come from vineyards located to the west of Frauenkirchen, a somewhat different soil depending on the variety. Zweigelt stands on iron-rich pebbly soil, Blaufränkisch where there is more lime and clay, Cabernet Sauvignon grows on extremely poor soil.

Cellar

Harvest:	handpicked

Wine Description

Bright garnet red in colour, cherry and blackberry aromas with hints of redcurrant, dark, ripe cherry on the palate with nuances of redcurrant and light toasty aromas, ripe, delicate tannic acid and a fine aftertaste.

Winery

Connected to the soil and always open to new things characterise our work. The vineyards are cultivated expertly and ecologically, the grapes are harvested exclusively by hand and the wine is given plenty of time to develop in the cellar.
