Strass
Kamptal
Kamptal is a cool climate region in the North East of Austria; cold winds from the north highlands meet in the Kamptal with the panonian climate. Very high temperature changes from the night and day bring thick skins of the berries wich leads to stronger aromas and vibrant acidity. Microclimates change from hillsides to hillsides and vineyard to vineyards. Altitudes range from 200 to nearly 500 metres. Small valleys between the hills work like channels where cold winds from the northern regions chill down the vineyards during the nights... Strass has a very special microclimate because it has the first south faced slopes near the flat of the Danube. It's a unique combination of the very old mother rock of the Bohemian Massive and the particular influence of the Pannonian climate.

ALTE REBEN GEMISCHTER SATZ

vintage.
varietal.
vineyard site.
vinification.

2023
Riesling 70 %, Welschriesling 30 %
Strasser Merschein - soil type desert lime stone and Gföhler Gneis - altitude 299m to 332m
whole bunsh pressing, 12 hours of skin contact before pressing,
fermented with native yeast,
fermented and aged: in used frensh oak barrels
aged for 10 month on lees without sulphor
botteld in March 2025
24 mg/l_t So₂ added before bottling

Data

alcohol. 12.5 % / dry
residual sugar. 8.3 g/l
acid. 2.4 g/l
quality grade. natural wine
wine type. Still wine | white
allergens. sulfites
