## Harvest and Maturing

The grapes for this wine are harvested and processed partly together (Müller-Thurgau, Grüner Veltliner, and Muskat Ottonel) and partly separately by variety and vineyard site (Gelber Muskateller). The selective picking of ripe, healthy grapes is carried out exclusively by hand. In the cellar, the grapes are destemmed and crushed. A short maceration period of a few hours is followed by gentle pressing. The resulting fresh must is naturally clarified by sedimentation. Fermentation takes place under controlled cooling, ensuring particularly fruit-preserving vinification in stainless steel tanks. After fermentation, the young base wines are racked off the gross lees, blended, and allowed to rest on the fine lees for about two months. The wine is then clarified/filtered and prepared for bottling.
