

A second generation family-owned winery.

Uncomplicated and no slave to tradition. Experimental and with curiosity. With passion and enthusiasm. Hand-crafted. Sustainability and respect for nature. Exclusively own grape material which came from 37 small plots. Only us and our own vineyards.

Organic viticulture: sustainable and versatile. Leaving nature as it is. Intercropping. Cover crops. Water areas. It is worth it to respect nature and just to let it be. Our vineyards are wild places, with buzzing, twittering, growth, vitality. This earth is precious.
